### WORK EXPERIENCE

---

#### Wayfair

Boston, MA

##### Senior Associate Product Manager

August 2019 - Present

##### Associate Product Manager

January 2019 - September 2019

- Guided team of 6 engineers to build new systems for tracking inventory, creating visibility on building capacity and equipment use, and directing movement efficiently within the warehouse
- Led product launches at 40 buildings in 6 months with stakeholders, including field operators, training, process, and engineering
- Drove criticals reduction initiative by project managing the IT services team which resulted in a 46% decrease in YOY criticals/1000 orders while removing the need for a dedicated engineer to manually resolve bugs

#### Andorra Capital

Cambridge, MA

##### Product Manager

January 2018 - November 2018

- Developed product designs and a product roadmap to develop user onboarding flows and client-facing dashboards for quicker adoption of product and acceleration of actionable insight from Andorra's offerings
- Communicated value and security of Andorra's platform during RFP process to influence over 30 organizations to share sensitive financial data and to manage their investor relationships through our platform
- Created an extract, transfer, and load workflow to transfer investment data from 7 sources into the Andorra database

#### LogMeIn

Boston, MA

##### Product Management Intern - Innovations

June - August 2017

- Developed end-to-end journey maps through data analysis to better illustrate user pain points and habits
- Acted as Scrum Master, wrote new user stories, managed the backlog, and held status meetings with a cross-functional team
- Conducted market research to gauge the product's position, estimate pricing, and identify growth areas to support a pro forma that was presented to LogMeIn's CEO

#### Tufts University

Medford, MA

##### Academic Technology Fellow

July 2016 - May 2017

- Created natural language processing web app using Django and NLTK to classify documents for a Tufts-based search prototype
- Developed a custom map with JS and Google Maps API to mark and share locations of endangered species for ecology research

### EDUCATION

---

#### Tufts University

Medford, MA

##### BS. Computer Science, BA. Philosophy, Cum Laude

May 2018

GPA: 3.52 (Five-time Dean's List)

#### Tufts Entrepreneurial Society

Medford, MA

##### Founder

September 2016 - June 2018

- Individually advised over 35 ventures on business, product, and legal roadblocks through Design Thinking and networking sessions to help entrepreneurs overcome early obstacles in their startup
- Developed and maintained key relationships with over 70 alumni/administrators to ensure that each startup had at least two engaged mentors of unique expertise in varied fields
- Coordinated volunteers for Tufts Entrepreneurial Center events such as the Tufts 100k (1200 attendees)
